Report on the Programme:

DR. AMARJIT SINGH BHUI, Principal, Lanka Mahavidyalaya, Lanka, Hojai is present as Resource Person in this programme. Total 311 persons have registered their names in the programme and about 67 numbers of participants actively participated in the programme. DR. AMARJIT SINGH BHUI states that "Today India has the largest number of people of the age group of 15 to 24. This is a class that is most powerful physically and mentally. They are those who make every effort for the development of the country and their families. The backbone of India is the youth. The youth plays the main role to make the country progress. The future of any country becomes beautiful by the youth of the country. But today Indian youth has become selfish, they do not think about the progress of the country but only thinks about him/her. They are getting enough employment opportunities, but sadly, no matter how much the youth of today have been educated, they are forgetting their rights and responsibilities towards the country and family day by day." He also discussed about how important youth participation is in politics as well as social work for better growth of Indian Socio-Political System and pointed out some factors for motivating youth generation towards political system.
