

Report on the workshop on “Use of E-Resources”

Date: 07/06/2022

No. of Participant: 42

E-resource is defined as a resource that requires computer access or any electronic product that delivers a collection of data. Electronic resources include websites, online databases, e-journals, e-books, and physical carriers in all formats, whether free or fee-based, required to support research in the subject covered, and maybe audio-visual and/or text files.

Our college has registered under the NDLI and NLIST programme which have plenty of e-resources. Using e-resources is very much important in the teaching-learning process. We have organized one workshop on 7th June/2022 about the use of e-resources. It was hands-on training that helps the students for searching the resources that are available in NLIST and NDLI and other free access. Over 40 participants attended the workshop.

Student's attendances and some photos are:

"Use of E-resources" (Workshop)

PAGE NO. _____
DATE: 09/06/20

Today a Workshop is organised in the college conference room. The time slot is assigned by computer. Students from different departments attended the programme. It is hands-on training for the use of nlist and nlib resources. Most of the students practice through their mobile phone. Mr. S. K. Das, Librarian of B. B. K. College has explained the different activities and facilities of nlist & nlib and how to use them.
